

ABSTRACT

In this application is disclosed a raw material liquid  
for a carbonated beverage wherein Aspartame is used as a  
5 sweetener and wherein an emulsifier having an HLB value of 1  
to 14 or/and an emulsifier having a molecular weight of 50 to  
300 is/are contained, according to which the problems which are  
caused by the Aspartame-attributable foam can be solved by a  
method free from the problems with respect to the sensory  
10 aspect, safety and effect sustainability of a product.
